# Queensland has its own taxation powers and receives federal fiscal support

## The states' sources of revenue

- Australian states and territories (states) impose taxes, duties and charges in areas distinct from those where the Australian Government has authority. Examples of state taxes include payroll taxes, royalties, stamp duties and land taxes.
- The Australian Government provides explicit and predictable financial support to all states in the form of:

**General purpose payments** – ‘untied’ grants which are funded by the Goods and Services Tax (GST) revenue and are used for both recurrent and capital purposes.

**Payments for specific purposes** – ‘tied’ grants to fund specific projects or programs in order to support service delivery and facilitate reforms.

The Australian Government’s Disaster Recovery Funding Arrangements, which provide partial (up to 75 per cent) reimbursement for eligible costs incurred as a result of natural disasters, are also classified as a payment for specific purposes.

# Queensland's commitment to positive Environmental, Social and Governance (ESG) outcomes

## ENVIRONMENTAL

- State target to reach zero net emissions by 2050
- State signatory to *Under2 Memorandum Of Understanding* climate agreement for subnational governments
- Climate Action Plan 2030, including transition and adaptation initiatives

## SOCIAL

- Ongoing investment in health and education
- Targeted subsidies for social housing, public transport, energy and water
- Legislation and policies to support human rights and equal opportunities

## GOVERNANCE

- Stable system of government and political framework
- Strong financial management
- COVID-19 pandemic support initiatives

The Queensland Government acknowledges the increasing expectations of the global community to demonstrate its approach to considering ESG risk factors and sustainability issues in its decision making. Queensland's ESG Statement is available at [www.treasury.qld.gov.au/programs-and-policies/esg-statement/](http://www.treasury.qld.gov.au/programs-and-policies/esg-statement/)

# Queensland's action on climate change

The Queensland Government has set targets for reducing emissions while creating jobs.

1. 50%<sup>1</sup> renewable energy target by 2030
2. 30% emissions reduction below 2005 levels by 2030
3. zero net emissions by 2050

The Climate Action Plan 2030 at [www.des.qld.gov.au/climateaction](http://www.des.qld.gov.au/climateaction) outlines the State's initiatives to reach its emissions and renewables targets, create jobs and drive economic recovery from COVID-19.

The plan builds on the Government's work-to-date, including two climate change strategies released in 2017—The Climate Transition Strategy and Climate Adaptation Strategy.

The [Queensland Climate Adaptation Strategy](#) provides a guide for Queensland to become more climate resilient and manage the risks associated with a changing climate.

<sup>1</sup> For the purposes of measuring performance against this target, the Queensland Government currently reports a measure of renewable energy generation in Queensland as a proportion of electricity consumption within Queensland (excluding exports), i.e. An estimate of the proportion of electricity consumed in Queensland that is generated from renewable sources.

CORPORATION

# Appendices

# Queensland Treasury Corporation

## About QTC

- Founded in 1988, Queensland Treasury Corporation (QTC) is a corporation sole, constituted by the Under Treasurer in accordance with the Queensland Treasury Corporation Act 1988.
- QTC has responsibility for the State of Queensland's debt funding and financial risk management. In its funding role, QTC borrows funds in the domestic and international markets by issuing a variety of debt instruments.
- Its clients include Queensland Government departments and agencies, local governments, government-owned corporations, and statutory bodies and universities.
- QTC is able to capture significant economies of scale and scope in the issuance, management and administration of the State's debt.

## Queensland State Government Guarantee

The Treasurer of Queensland, on behalf of the State Government, guarantees:

- QTC's obligations under the debt securities issued by QTC, and
- QTC's payment obligations to counterparties under derivative transactions governed by ISDA agreements.

In respect to all domestic securities issued by QTC, section 32 of the *Queensland Treasury Corporation Act 1988* provides a statutory guarantee of QTC's obligations to stockholders:

---

**Section 32** The due repayment of principal on inscribed stock issued in accordance with this Act and, where payable, the due payment of interest relating to the inscribed stock are guaranteed by the Treasurer, on behalf of the Government.

---

Section 33 of the *Queensland Treasury Corporation Act* empowers the Treasurer to guarantee due payment of moneys and due performance of obligations in accordance with financial arrangements or other arrangements entered into by QTC. Such discretionary guarantees have been granted by the Treasurer and continue to operate in support of QTC's offshore debt facilities.

All payments by the State Government under these guarantees are appropriated under section 34 of the *Queensland Treasury Corporation Act*, meaning they can be paid from the State's Consolidated Fund without any further legislative approval.

## Key funding principles

<b>CONSERVATIVE</b>	Balanced debt maturity profile supported by liquid reserves
<b>PRUDENT</b>	Disciplined approach to financial risk management
<b>TRANSPARENT</b>	Comprehensive, regular market updates
<b>COMMITTED</b>	Valued long-term investor and intermediary relationships

## Queensland's long-term assets

- Queensland's long-term assets comprise investments set aside to fund long-term obligations of the State. These assets were transferred to QTC by the Queensland Government and in return QTC issued fixed-rate notes that provide a fixed rate of return. These assets are split into two investment funds:
  - Long Term Assets Fund comprises assets to fund the State's defined benefit superannuation scheme and other long-term State initiatives. In 2008, the Queensland Government transferred assets to support the defined benefit superannuation scheme. In June 2021, more assets were transferred to fund other long-term State initiatives.
  - Queensland Future Fund comprises assets invested to reduce the debt of the State. In August 2020, the Queensland Future Fund Bill 2020 was passed, establishing the Queensland Future Fund and its first sub fund, the Debt Retirement Fund.
- The Long Term Assets Fund and the Queensland Future Fund are overseen by the State Investment Advisory Board and managed by Queensland Investment Corporation (QIC). They include cash, fixed interest, international equities and other diversified alternative investments.
- Queensland is in a unique position with financial holdings greater than its superannuation obligations, with assets under management of approximately AUD37.8 billion as at 30 June 2021.

# Australia's federal and state system

## Federalism

The Commonwealth of Australia ('Australian Government' or the 'Commonwealth') was formed as a federal union on 1 January 1901, when the six British colonies of New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania were united as states in a federation. In addition to the six states, Australia has two territories — Northern Territory and the Australian Capital Territory — the latter hosting the nation's capital of Canberra.

## Powers

### **Australian Government**

The Australian Parliament has power to legislate on specific matters of national interest, such as defence, external affairs, overseas and interstate trade and commerce, currency and banking. The Australian Government also has primary responsibility for overall economic management in Australia. For example, they have responsibility for monetary policy, national budget policy, fiscal policy, exchange rates and external policy.

### **State Government**

The state parliaments retain powers over all matters other than those granted to the Australian Government under the Constitution.

State powers include control over education, public health, police and justice, transport, roads and railways, industry, mining and agriculture, public works, ports, forestry, electricity, gas, and water supply and irrigation.

## Distribution of GST

- States and territories (states) receive all revenue collected by the Australian Government via the Goods and Services Tax (GST).
- It is allocated using the principles of horizontal fiscal equalisation, which is designed to equalise the states' fiscal capacity to provide public services to the same standard.
- Under this system, some states with below average revenue raising capacity or above average spending requirements receive a larger share of GST (and vice versa).
- The independent Commonwealth Grants Commission determines the annual allocation across the states.

### Examples of differences between states to raise revenue and their expenses

# AUD denominated bonds on issue

It is widely expected that under current fiscal estimates, the volume of Australian semi-government benchmark bonds on issue will continue to increase.

The Queensland Coat of Arms, represented in Queensland Treasury Corporation's logo, was granted by Queen Victoria in 1893 and symbolises her constitutional authority for the State.

At the top, the State badge is surrounded by two stems of sugar cane. Below the badge, the shield features the heads of a bull and a merino ram, a sheaf of wheat, and a column of gold rising from a pile of quartz, over a spade and pick. These elements symbolise Queensland's strong agricultural and mining industries.

In 1977, during her Silver Jubilee year, Queen Elizabeth II granted the Arms two 'supporters', a red deer and Queensland's native brolga.

The State motto, Audax at Fidelis, means 'Bold but Faithful'.
