Queensland Treasury Corporation

About QTC

- Founded in 1988, Queensland Treasury Corporation (QTC) is a corporation sole, constituted by the Under Treasurer in accordance with the Queensland Treasury Corporation Act 1988.
- QTC has responsibility for the State of Queensland's debt funding and financial risk management. In its funding role, QTC borrows funds in the domestic and international markets by issuing a variety of debt instruments.
- Its clients include Queensland Government departments and agencies, local governments, government-owned corporations, and statutory bodies and universities.
- QTC is able to capture significant economies of scale and scope in the issuance, management and administration of the State's debt.

Queensland State Government Guarantee

The Treasurer of Queensland, on behalf of the State Government, guarantees:

- QTC's obligations under the debt securities issued by QTC, and
- QTC's payment obligations to counterparties under derivative transactions governed by ISDA agreements.

In respect to all domestic securities issued by QTC, section 32 of the *Queensland Treasury Corporation Act 1988* provides a statutory guarantee of QTC's obligations to stockholders:

Section 32 The due repayment of principal on inscribed stock issued in accordance with this Act and, where payable, the due payment of interest relating to the inscribed stock are guaranteed by the Treasurer, on behalf of the Government.

Section 33 of the *Queensland Treasury Corporation Act* empowers the Treasurer to guarantee due payment of moneys and due performance of obligations in accordance with financial arrangements or other arrangements entered into by QTC. Such discretionary guarantees have been granted by the Treasurer and continue to operate in support of QTC's offshore debt facilities.

All payments by the State Government under these guarantees are appropriated under section 34 of the *Queensland Treasury Corporation Act*, meaning they can be paid from the State's Consolidated Fund without any further legislative approval.

Key funding principles

CONSERVATIVE	Balanced debt maturity profile supported by liquid reserves
PRUDENT	Disciplined approach to financial risk management
TRANSPARENT	Comprehensive, regular market updates
COMMITTED	Valued long-term investor and intermediary relationships

Queensland's long-term assets

- Queensland's long-term assets comprise investments set aside to fund long-term obligations of the State. These assets were transferred to QTC by the Queensland Government and in return QTC issued fixed-rate notes that provide a fixed rate of return. These assets are split into two investment funds:
 - Long Term Assets Fund comprises assets to fund the State's defined benefit superannuation scheme and other long-term State initiatives. In 2008, the Queensland Government transferred assets to support the defined benefit superannuation scheme. In June 2021, more assets were transferred to fund other long-term State initiatives.
 - Queensland Future Fund comprises assets invested to reduce the debt of the State. In August 2020, the Queensland Future Fund Bill 2020 was passed, establishing the Queensland Future Fund and its first sub fund, the Debt Retirement Fund.
- The Long Term Assets Fund and the Queensland Future Fund are overseen by the State Investment Advisory Board and managed by Queensland Investment Corporation (QIC). They include cash, fixed interest, international equities and other diversified alternative investments.
- Queensland is in a unique position with financial holdings greater than its superannuation obligations, with assets under management of approximately AUD37.8 billion as at 30 June 2021.

Australia's federal and state system

Federalism

The Commonwealth of Australia ('Australian Government' or the 'Commonwealth') was formed as a federal union on 1 January 1901, when the six British colonies of New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania were united as states in a federation. In addition to the six states, Australia has two territories — Northern Territory and the Australian Capital Territory — the latter hosting the nation's capital of Canberra.

Powers

Australian Government

The Australian Parliament has power to legislate on specific matters of national interest, such as defence, external affairs, overseas and interstate trade and commerce, currency and banking. The Australian Government also has primary responsibility for overall economic management in Australia. For example, they have responsibility for monetary policy, national budget policy, fiscal policy, exchange rates and external policy.

State Government

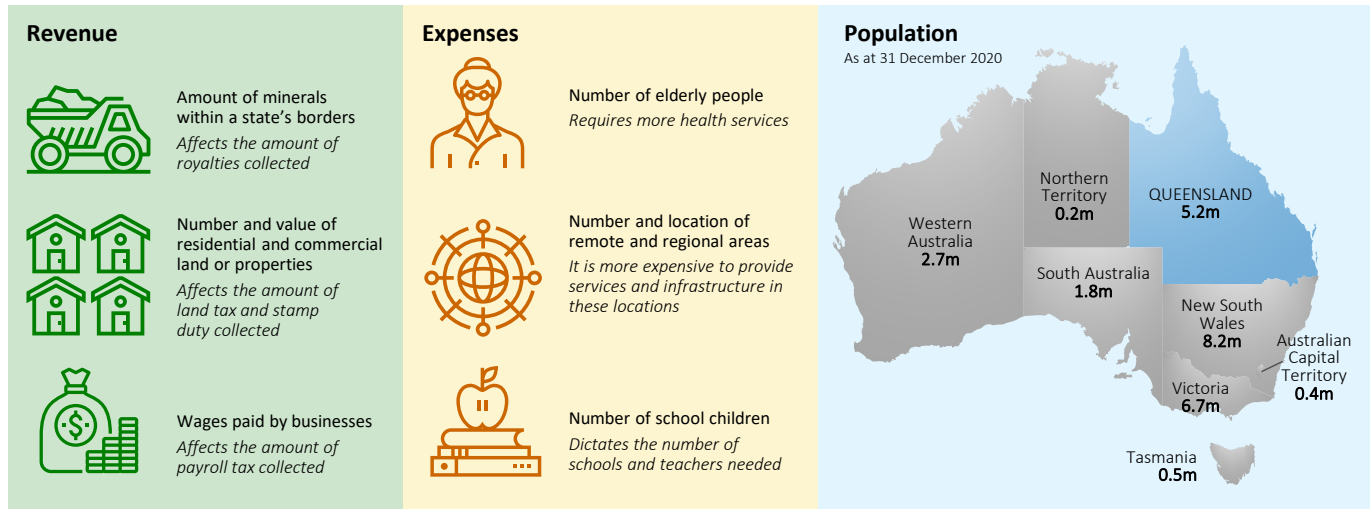

The state parliaments retain powers over all matters other than those granted to the Australian Government under the Constitution.

State powers include control over education, public health, police and justice, transport, roads and railways, industry, mining and agriculture, public works, ports, forestry, electricity, gas, and water supply and irrigation.

Distribution of GST

- States and territories (states) receive all revenue collected by the Australian Government via the Goods and Services Tax (GST).
- It is allocated using the principles of horizontal fiscal equalisation, which is designed to equalise the states' fiscal capacity to provide public services to the same standard.
- Under this system, some states with below average revenue raising capacity or above average spending requirements receive a larger share of GST (and vice versa).
- The independent Commonwealth Grants Commission determines the annual allocation across the states.

Examples of differences between states to raise revenue and their expenses

AUD denominated bonds on issue

It is widely expected that under current fiscal estimates, the volume of Australian semi-government benchmark bonds on issue will continue to increase.

New South Wales	AA+/Stable/A-1+	Aaa/Stable/P-1	
Northern Territory	Not rated by S&P	Aa3/Stable/--	
South Australia	AA+/Negative/A-1+	Aa1/Stable/P-1	AA/F1+/Stable
Tasmania	AA+/Stable/A-1+	Aa2/Stable/P-1	
Victoria	AA/Stable/A-1+	Aa1/Negative/P-1	
Western Australia	AA+/Stable/A-1+	Aa1/Stable/P-1	

Funding instruments

QTC has a diverse range of funding instruments in a variety of markets and currencies.

The majority of QTC's funding is sourced through long-term debt instruments, with QTC's AUD benchmark bonds being the principal source of funding.

Overview as at 30 June 2021		Size \$M	Maturities available	Currencies
Short-term	Domestic T-Note	Unlimited	7–365 days	AUD
	Euro CP	USD10,000	1–364 days	Multi-currency
	US CP	USD10,000	1–270 days	USD
Long-term	AUD Bond	Unlimited	13 benchmark lines: 2022–2034 A range of non-benchmark lines (e.g. Green Bonds, FRNs etc)	AUD
	Euro MTN	USD10,000	Any maturity subject to market regulations	Multi-currency
	US MTN	USD10,000	9 months–30 years	Multi-currency

AUD Benchmark Bond Distribution Group*

QTC's Fixed Income Distribution Group of 12 banks is committed to providing investors with two way pricing in the secondary market, as well as supporting primary issuance activity.

The Queensland Coat of Arms, represented in Queensland Treasury Corporation's logo, was granted by Queen Victoria in 1893 and symbolises her constitutional authority for the State.

At the top, the State badge is surrounded by two stems of sugar cane. Below the badge, the shield features the heads of a bull and a merino ram, a sheaf of wheat, and a column of gold rising from a pile of quartz, over a spade and pick. These elements symbolise Queensland's strong agricultural and mining industries.

In 1977, during her Silver Jubilee year, Queen Elizabeth II granted the Arms two 'supporters', a red deer and Queensland's native brolga.

The State motto, Audax at Fidelis, means 'Bold but Faithful'.
